

## STATEMENT

All our farms (Veli Bok, Osor and Plavnik) are not situated in protected area or HVAC area.

All our farms are situated more than 500 meters from sea meadows.

We do not use underwater acoustic deterrent devices.

We do not use transgenic species of fish on our farms.

We will continue to supply fish feed from suppliers that supply their fish from fisherman that are certified according to ISEAL scheme.

We provide our workers with a possibility to negotiate together for their working rights and salary.

We prefer suppliers that have social practices in place and will value them more than suppliers that do not.

In Cres,

20.05.2020.

Marko Miculinić
